

# HERE'S the POINT

By SPENCE HELD

Saturday afternoon I watched the aircraft carrier Wasp maneuver toward its berth at North Island. The big ship was ending a world cruise that included duty off the coast of Indochina.

Many San Diegans probably aren't aware that the Wasp was the second carrier to bear that name during World War II. The first one was torpedoed by a Japanese submarine about 200 miles off Guadalcanal in 1942.

I remember the "Death of the Wasp" very well because that was the title of a magazine article upon which I lavished considerable care and affection. Getting it through Navy censorship took several weeks, and the story finally was published eight months after the magazine bought it and just two years after the carrier was sunk.

It should have been written by Jack Singer, of I. N. S., who was aboard. But he was killed when a torpedo hit the ship.

Lieut. Millard Thrash, USNR, of Reedy, V. Va., gave me the dope. On Sept. 15, 1942, he took off from the Wasp in his Wildcat fighter for combat patrol over the sea. At 3500 feet he looked down and saw two waterspouts rearing high above the superstructure while smoke and flame burst out amidships.

Thrash circled down and saw the whole flaming panorama of death and destruction. The late Forrest Sherman, who became Chief of Naval Operations, was skipper of the Wasp. Comdr. Courtney Shands, commanding its air group, turned up here a couple of years ago as skipper of the carrier Oriskany.

Skipper of the second Wasp is Capt. Patrick Henry.

This is the political season, and candidates for a flock of offices are out beating the bushes for votes. Which reminds me that there's a fella living on Point Loma who has forgotten more about politics and politicians than most of the so-called experts around town will ever learn.

And he hasn't forgotten much, either. I'm referring to Tom Armstrong, the sage of Savoy Circle. He is a one-time San Diego newspaperman who has been in the public relations business for 10, these many years.

Yeah, Tom knows all the angles. But he values his personal integrity more than any opportunity to make a fast buck. And he has helped a lot of people when they needed help; he does it quietly, without fanfare.

Tom has avoided personal publicity as long as I've known him. This is an attempt to pin an orchid on him whether he likes it or not.

Well, I went to the State College open house Sunday. At Scripps Cottage I encountered Dr. Edward L. Hardy, and while introducing him to a group of recent graduates, I referred to him as "President Hardy."

Standing there, unnoticed by me at the time, were Dr. Walter Hepner, another former president, and President Malcolm Love. Hope they didn't mind.

As far as I'm concerned, Dr. Hardy will always be president of State College.

## Fluoridation Benefits Cited By Committee

The Citizens' Committee for Children's Dental Health has warned that "if the families of Ocean Beach don't wake up to the true facts about fluoridation, they may risk losing a thing that would save them hundreds of dollars."

The Citizens' Committee is campaigning against Proposition A on the June 8 ballot. The proposition would abolish fluoridation.

Dr. William F. Sikes, Ocean Beach campaign chairman for the Citizens' Committee, said, "Here are some of the facts every family should consider:

"Fluoridation of city water supplies is now being done in 936 communities. Wherever it has been given a long trial it has proven over the years that it reduces tooth decay among children by 50 to 60 per cent. As fluoridation is continued, it reduces decay among older age

## Gunman Sprays Bullets Into Ocean Beach Bank

In the second unexplained shooting episode in the Peninsula area recently, bullets were sprayed into the Ocean Beach branch of the Bank of America about 2:30 a.m. Tuesday.

Crowds gathered outside the bank early Tuesday, gazing at a dozen bullet holes in the plate glass windows. The windows were boarded up that afternoon but two neat holes in the metal frame above the door were still visible, along with another hole centered above the frame. New plate glass was being installed yesterday.

The chief of detectives was quoted as saying it was a boyish prank. (The dictionary defines prank as "a mischievous trick, frolic, a gay or sportive action.")

Damage was estimated at \$1000. One bullet traveled the length of the bank and went out the back. Another shattered the glass in an office partition at the rear. Bullets ricocheted wildly

## John Eberhardt Will Command All S. D. Cadets

Appointment of a 16-year-old Point Loma High School senior as the new commanding colonel of the 800 cadets in the San Diego R.O.T.C. Regiment, comprising six high school battalions, was announced this week by Maj. Philip E. Snyder, Army officer heading the program.

The new cadet colonel is John D. Eberhardt, of 3744 Poe St., who has served this year as battalion commander at the local high school.

His principal responsibility between now and his graduation next month will be to command the Corps of Cadets in the annual regimental parade and field day maneuvers Wednesday evening, May 12, in Balboa Stadium.

An honor student who received straight "A's" last semester, Eberhardt recently took the entrance examinations for Caltech and hopes to enter the Pasadena college next fall.

His father, an air force intelligence officer in World War II, was killed in an airplane crash at Macon, Ga., in 1944. A younger brother, David, 14, is a junior and second-year R.O.T.C. cadet at Point Loma.

## Trinity Vicar To Be In Charge Of San Gabriel Youths

The Rev. Robert S. Spicer-Smith, vicar of Trinity Episcopal Church for the past 4 years has announced his resignation to become effective on the last Sunday in June. He will leave here to become Associate Rector of the Church of Our Saviour in San Gabriel, California. There he will have charge over the entire youth program in the parish, that boasts about 500 young people and children in its membership. The parish itself has over 1300 members. San Gabriel, too is really Father's home, as his mother resides there.

During the time Father Spicer-Smith has been here his congregation has grown from forty parishioners to over two hundred and a new church has been built.

inside the bank. George Radovich, of the Arizona Cafe on Bacon St., around the corner, said he was standing in front of the cafe and heard a long, loud burst of shots. "It sounded like a machine gun," he said.

Bullet fragments found inside the bank were from a high velocity weapon of at least .30 caliber, police said. It was believed that an automatic was used.

The gunman apparently fired his burst from a car. One report had it that a dark brown auto was seen to turn the corner at Newport and Bacon at high speed.

Bank officials were puzzled by the shooting.

On Sunday, April 25, while F. A. Wolf of Ocean Beach was fishing in the ocean off Point Loma, a rifleman fired three shots at his boat, he reported. He informed the Coast Guard that the shots apparently came from a Fort Rosecrans rifle range.

## LOCAL ANGLERS GOING STRONG IN FISH DERBY

With the first qualifying period of the \$25,000 San Diego Yellowtail Derby scheduled to close Saturday and with the one-day fishoff for the 100 anglers with the high weight fish scheduled for the following Wednesday, several Point Loma-Ocean Beach area anglers appeared to have their bids to the finals safely tucked away.

Heading the list was Capt. Dennis N. Caplinger, of Fort Rosecrans, who stood second in derby standings with a 31-11. Others included Wilson Edwards 22-12; R. Frangore, 22-4; Ray Briggs, 22-0, and Joe Samuels, 21-11.

Prizes at stake in the initial fishoff included: Ford sedan; boat, trailer and motor; house trailer; deep freezer; radio; reel, and line combination, and other similar items.

Top yellow caught during the week was a 35 pound 12 ounce bagged by Clarke W. (Johnny) Johnson, of Long Beach, boosting the lead he already held by three full pounds.

Good catches of white sea bass were made at La Jolla, but the largest of the week was a 62 pounder caught at North Coronado Island by Albert W. Hamilton, of Long Beach.

Kelp beds fishermen also got in some good clicks at the Point Loma kelp, taking calico bass and a few whites each day.

## KNIFE FLASHED IN HOLDUP AT LIQUOR STORE

A liquor store was held up at knife-point and two other thefts occurred in this area recently, according to police. Only one traffic injury was reported.

Two young men walked into the ABC Liquor Store, Voltaire and Ebers Sts., last Thursday night and confronted Mr. and Mrs. M. W. Bernardini. One held a knife on Mrs. Bernardini, saying, "Don't make any noise and you won't get hurt."

He then took \$124 from the cash register while his partner relieved Bernardini of his wallet containing \$75.

The C. J. Hendry Co., 2607 Byron St., reported the theft Saturday of sheet lead worth about \$450. Elinor Vaughn, 4004 Bernice Dr., told police that a chair, playpen and ice box were stolen from her unlocked garage Saturday.

Tracy Ball, 12, 4753 Muir Ave., was injured slightly last week while playing ball on Long Branch Ave., between Sunset Cliffs Blvd., and Ebers St. As he darted after the ball he was struck by a car driven by Wm. O. Conklin, 4415 Long Branch.

## Sen. Fred Kraft Says Opponent Tries 'Smog'

State Sen. Fred Kraft of Ocean Beach this week charged his opponent is trying to create "political smog" with unfounded accusations of absenteeism from legislative sessions.

"My opponent," he said, "is trying to make absenteeism an issue, when as a matter of fact the record in both the 1951 and 1953 regular sessions shows my attendance was better than 78 percent. This is well above the average attendance record of members of the upper house. This figure is verified by the minute clerk of the Senate."

Kraft reviewed his record at a breakfast meeting attended by a group of Peninsula area business men who are supporting his candidacy. They are distributing literature and helping his campaign in other ways.

Those present included Col. Thomas D. Drake, presiding; Marc Strauss and Dick Christopher, co-chairmen; Ray Perine, Milt Lancaster, Ted W. White

Mr. Bob Horn, Chris Stavros, Art Stone, Paul Campbell, Atty. Edward L. Bracklow and Atty. Frank Owen.

Col. Drake, regional director of the 30th Congressional District, California Republican Assembly, this week criticized the endorsement of a candidate for a contested office before the primary election.

Specifically, Drake leveled at "an unauthorized committee" which purportedly has lined up for Assemblyman Ralph Cloyd in his contest against Kraft.

He said: "The San Diego County Republican Assembly and the Republican Assembly Dinner group, whose combined membership represents about 85 percent of the Assembly members in this county, do not subscribe to the endorsement of any State Senator candidate prior to the primary. They believe this is a function of the individual voters where bonafide candidates are vying for office."

## MASS MEETING HERE TOMORROW To Form Organization Opposing Sewer Bonds

A public mass meeting will be held tomorrow (Friday) at 8 p.m. in the Ocean Beach Community Center to form an organization to fight the City's plan for construction of a sewage disposal plant on Point Loma, it was announced yesterday by Tom Drake, local civic leader.

"It's time for action," said Drake. "We want volunteer workers to help defeat any sewage disposal plant or outfall in the Point Loma, Midway or Mission Beach recreation area."

Meanwhile, the Metropolitan San Diego Sewer Bond Committee, supporting the City's 16-million-dollar sewer bond issue on the June 8 ballot, declared that "The city's future growth would be almost stopped if San Diego Bay continues to be used for the city's cesspool."

And S. J. Woodruff, of 4721 Coronado Ave., and R. O. Phillips, 1626 Ebers St., wrote a letter to the PENINSULA NEWS stating that "on every hand we see, hear and read of the great blessings of this sewage plant. First, there is a critical need for it. Second, it is promised to be a thing of architectural beauty with certain aesthetic appeal also."

"And thirdly, not only will any obnoxious odor be utterly lacking, but propaganda leads us to believe it may enhance the atmosphere in some inexplicable manner."

Woodruff and Phillips suggested that the sewage plant, "to enrich the lives of the greatest number," should be located at about Fourth and Broadway. "Admiration of it each day by

the city fathers and business leaders may inspire them to higher achievements and it would then be most convenient for the tourist to marvel over.

"Parking space could be provided on top of the plant and over it could be constructed a beautiful hand-tooled courthouse."

Chester Dorman, a co-chairman of the Metropolitan San Diego Sewer Bond Committee, declared that the state "would not permit further degradation of the bay."

The only way the city could comply with the state order, he said, would be to limit additional dumping of sewage into the bay. And the only way it could do that, he said, would be to halt sewer connections.

Dorman said the facts speak for themselves. "Everyone concerned with his family's health, future jobs and the appearance of his city has a big stake in the success of the \$16 million sewer bond issue," he said, "and the best possible solution of the problem is being offered voters June 8."

In the title bout, Plant hammered Fernandes with hard rights to the head in the second and third rounds and evaded the latter's wil swings. He won the 156-pound Eastern Navy championship recently on a TKO.

## BENEATH THE SURFACE

LEE C. POOLE

Administration costs? Why what are they? I didn't contract for any.

Maybe you didn't contract for any administration costs, but you may have to pay them just the same. When you do pay them, almost certainly you will exclaim, "Too high—why didn't some one tell me about them?" ... and there ought to be a law.

Here are some of the things that will likely figure in the administration costs when you or your wife dies.

Your Administrator (Executor, if you have a Will) has many responsibilities to perform such as: filing the will to probate, paying the court costs, filing an inventory; advertising for creditors in accordance with legal requirements; providing for a bond and its premium; meeting any expenses arising from a contest of the Will; paying any costs required to keep the estate property in good condition; preparing a tax return, where required, for State Inheritance Tax, Federal Estate Tax, local property taxes, etc.; arranging for any necessary changes in title of distributed property; arranging to distribute all assets in accordance with the Will or, if no Will, in accordance with the applicable statutes.

These are a partial list of item that go to make the Administration Costs of a deceased person run higher than the survivors think they should be.

Yes, there are some things

that you might do in advance to minimize Administration costs. But before you consummate action, better clear with your Attorney.

For example: Are you clearly a resident of only one state? You may predetermine executor and trustee fees. Is your estate arranged for the maximum benefit of the "marital deduction"—where applicable? Are guardians for the children pre-arranged? Will there be adequate cash to meet all the expenses so capital assets will not have to be forcedly sold? If you are not insured, perhaps you can prearrange any necessary loans to meet the estimated obligations. If possible, advise your executor how to handle special aspects of your property or business. You know more about these matters than anyone in the world. Don't leave your executor in the dark. Where you have a choice, prescribe the evaluation method to be used in valuing assets. Often the Tax Commissioner will place a value far different than your executor will have arrived at. This matter is especially important if you have partnership interests or close corporation interests. Certain assets might better be transferred to Life Insurance property for thus you guarantee adequate cash at the time needed and your life insurance proceeds are not subject to Administration costs. Proper use of gifts and life-time transfers can often reduce Administration costs.

Does this sound discouraging? It probably

## Who's New . . .

### ADOLESCENT

A mind? Yes, he has one of those.  
It comes, however, and it goes.  
And if, when it is called upon,  
It mostly happens to be gone,  
Don't fret, don't shout, don't curse the lack;  
Just wait a while—it will be back!

SEE ABOVE—The poetic offering we address, with love and respect, to all Dana students, and send our thanks for it to an understanding seventh grade counselor at Dana Junior High, Robert Menke.

SHORT STORY—Sixteen grandchildren belie the youthfulness and vitality of Mrs. Edmund T. Price, 699 Rosecrans, who was hostess Friday at a Friendship Tea given for the Women's Committee of California Western University. She was telling about her trip to Europe with Mr. Price. They leave today for London where Mr. Price, president of Solar Aircraft Co., has offices. It was in London during the Coronation that Mrs. Price lost her beautiful star sapphire bracelet, which matched the ring she wears now. To replace her loss, Mr. Price bought her a lovely antique gold chain bracelet from which hang several miniature impression seals, each having its own story. On one seal he had engraved the word, "Eliza", for when he was a young man a fortune teller told him that would be the name of his true love.

POTENTIAL "PONY TAIL"—Her husband needed a haircut and had for some time. One day he ran into his barber having coffee at a nearby cafe. The barber ran his hands through Friend Husband's long, flowing locks and remarked, "It's good to know you aren't taking your business elsewhere."

PAINT JOB—Ten year old Diane Fletcher, spending Easter holidays in Mexico with parents, Mr. and Mrs. Willis Fletcher, 575 San Geronimo, mailed a black and white post card of a cathedral to Mrs. Robert Maw. Next day Mrs. Maw received a colored post card of the same Cathedral with Diane's inscription: "This one is better."

BUSINESS OPPORTUNITY—Catching tadpoles was lots of fun, for Lou and Shirley Ballou, ages 9 and 11, 1128 Catalina Blvd., but selling them to classmates for ten cents apiece was even more fun. Business was rushing and soon the Ballou Enterprises had made \$240. Although the teacher frowns on the company doing business on school time, we feel we should warn her that Lou received a pair of ambitious guinea pigs for Easter.

NEW GRANDDAUGHTER—Mrs. Philip W. Hardie, 3711 Kingsley, had news of the arrival of a new granddaughter, Ann Elizabeth Hardie, born April 15 at Kings County Hospital, Hanford, California, where the baby's father, Dr. Philip W. Hardie, Jr., is in residency. Ann joins a sister, Alice, age 2, in the Hardie nursery. The mother is a graduate of Wisconsin University where she met Mr. Hardie.

MUSIC SOFT AND SWEET—"Mary is Sweet Sixteen"—the words were on a giant square birthday cake along with a clever drawing, in black frosting, of an RCA record and musical notes. Other "platters" came in handy for sixty dancing teenagers who helped Mary Nunes celebrate her birthday. Mary is the daughter of Mr. and Mrs. A. Nunes, 3020 Byron St.

LACE IN THE KITCHEN—Mrs. Edmund T. Price shares with us the recipe for the delicious "lace cookies" she served at the Friendship Tea Friday. We promised we'd print it so here it is: 1/2 cup dark brown sugar, 2 tablespoons water, 4 tablespoons butter, 1 teaspoon vanilla, one cup chopped blanched Brazil nuts and one cup flour. Combine sugar and water and work in butter, vanilla, nuts and flour. Shape in small rounds one inch in diameter. Place on an oiled baking sheet. Bake 15 minutes at 325 to 350 degrees F. Let stand 30 seconds when baked, then lift at once with spatula. If the wafers are too brittle to remove without breaking, reheat a moment.

### Jester No-No To Entertain Cubs

Of Pack 125 Friday At 7:30 P. M.

Jester No No, a card-carrying Cub Scout of the Spring Valley PTA Pack 47, entertained the Ocean Beach Cub Scouts, Pack 125, at their monthly meeting, Friday, April 30, at 7:30 p.m. in the Silver Gate School Auditorium.

Jester No No has been called the "March of Dimes Dog" because of the appearance he has made for several years to help that organization raise funds for polio victims. He has been seen on Smoky Rogers TV show and has often been on Harold

Keen's "People In The News." Jester claims to be the most petted dog in San Diego, having been petted by literally thousands of children and grownups. He frequently makes appearances in connection with the puppet shows given by the Padre Puppeteers.

Jester No No is a large white standard poodle weighing about sixty pounds. Because he is so mischievous and full of pranks, and is told "Jester, No No!" so often, he has been named Jester No No.

### Art Festival Set In Park May 8, 9

Calling all San Diego County Artists, professional and amateur! An opportunity to exhibit and sell paintings and handicraft will be provided at the May Art Festival to be held in Balboa Park Saturday and Sunday. This is the second annual art mart sponsored by the Southwest Artists Association.

The exhibition, open to anyone living in San Diego County, is on a non-juried basis with no limitations on the number of paintings or craft objects which may be shown by any one exhibitor. Those interested may also show displays of mineral and gem collections. There is a registration fee of \$1.00.

The area to be set aside for the Art Festival will be the section of Balboa Park bordering on the corner of Laurel and 6th streets. Each artist or craftsman will be allowed to choose his own exhibition site on a first-come-first-served basis. The Festival begins officially at 10:00 a.m. each day of the show, but last year many artists were on the grounds by 8:30 or 9:00, arranging their exhibits. Last spring 37 artists registered at the Festival. An even larger turnout is expected this year, according to Mrs. Grace Jones, president of the Southwest Artists Association.

### MEET YOUR TEACHER

Today it is my pleasure to introduce Mr. Robert Crossley to you. He teaches a 4th-5th grade class.

Mr. Crossley was born in Royal Oak, Michigan and was raised in the city of Detroit. Upon graduation from Cooley high school he entered the Marine Corps and went through boot camp here in San Diego. After boot camp, he went through Parachute School at Camp Gillespie which is now Gillespie Field. He took two tours overseas, coming back a casualty each time. The first tour was with the Paratroopers, and it went through the Solomon Islands ending at Bougainville.

The second, was with the Fifth Division and that ended with two Jims. After his discharge he attended Western Michigan College at Kalamazoo for his B.A. Since then he has attended graduate school at University of Michigan and UCLA. He needs only one summer's work to receive his Master's Degree. He has taught three years in Michigan and this is his second with

the San Diego City System. His hobbies include flying, (when he can afford it), golf, sailing, and photography. He is a member of the Elks, and the La Jolla chapter of 20-30. He is looking forward to a very pleasant and enjoyable experience here at Sunset View School.

Next week, you will meet Miss Elva Drake, one of our first grade teachers.

## McKinley Relates His Viewpoints

"It is a serious political weakness for the county-wide elective offices to be non-partisan," William R. McKinley, candidate for tax collector, said in several speeches.

"If these offices could be filled in the traditional manner of the American two-party system, there would be almost no unopposed candidates, and the disgrace of the 'white ballot,' which is dragging California into political apathy, could be avoided," McKinley said.

"The present system tends to take control of the county-wide offices away from the people. There can never be a thoroughly American administration of any office where the office holder and all of his employees are not subject to a periodic report to the people, with their jobs dependent upon the turn of the ballot," he said.

## Vocational Training Open To All DAV

Jobs are becoming steadily scarcer for disabled veterans. That dire note on the national scene was received here today from Mr. William E. Montero, National Service Officer of the Disabled American Veterans who appealed to employers to hire the war handicapped.

At the same time the DAV urged disabled veterans not to overlook vocational training opportunities that would better prepare them for job security.

Mr. Montero said a report from the United States Veterans Employment Service shows that in a recent month placement of disabled veterans fell 13.3 percent from the previous month which continues an earlier decline.

"It is unfortunate to note this decline," he said, "and the DAV is increasing its employment efforts in cooperation with the various state employment representatives. Hiring the disabled is good business and their records on the job are without question outstanding."

"However, at the same time our disabled veterans must realize that they cannot afford to pass up vocational training opportunities. A recent DAV survey shows that those who took this training are earning today on an average a higher income than those who did not. The man who is trained to perform his job makes his continued employment on that job that much surer."

Mr. Montero said full information on vocational training opportunities may be obtained from the local DAV Chapters and the Service Office at 325 "B" street.

## Kraft's Committee To Have Joint Meet

State Senator Fred Kraft said today that he has received word from the Senate State Public Lands Committee, Senator Regan, Chairman, that there is the possibility that his committee and the Senate Fish and Game committee, will hold a joint meeting in the near future.

One of the problems under discussion, will be the use of Anza State Park, to permit hunting in certain areas in the park.

The title of the study is The Impact of State Land Ownership on Local Governments. The report of the Senate Public Lands Committee in 1949 shows a total of 822,838 acres in federal ownership, or 30.2% of the entire county acreage off the tax rolls, by reason of federal ownership. State ownership is estimated at 512,345 acres, or an additional 18.85 off the tax rolls. To help alleviate the unfair burden on the taxpayers of San Diego County and other counties similarly affected, the Public Lands Committee is considering the possibility of bringing Beach and Parks lands within the same category as the state forest lands and state fish and game lands, which pay in lieu taxes to the counties. The theory is that one county should not bear a burden because of the particular type of land use, as this land is enjoyed by the entire remainder of the state.

Senator Kraft added, "If the studies prove feasible, it may result in opening part or all of Anza Park for hunting, and putting these 402,219 acres back on the tax rolls, so the state would pay the in lieu tax."

**Food Show Jubilee**  
May 15 Thru May 23

The unique series of demonstrations will be a feature of the sixth annual San Diego Home Show and Food Show Jubilee, scheduled to run May 15 through May 23 in the Electric Building, Balboa Park.

Immediately behind the building an expansive outdoor living area is being designed around the show's traditional model home. The setting will include a swimming pool, patio and special products for outdoor use or installation.

Hours of showing will be 1 p.m. to 10:30 p.m. on Saturdays and Sundays, and 5 p.m. to 10:30 p.m. Monday through Friday.
